The Language Proficiency Score is derived by adding the Receptive Language Score (Reading plus Listening Comprehension) to the Productive Language Score (Writing, Vocabulary and Story Retelling). Note it is inappropriate to test students at Oral Proficiency Level 1 with Reading and Writing unless they have studied English as a Foreign Language before entering the U.S. *Visions Basic* program is for newcomers who need language development and literacy skills and the beginning of academic skills. Teachers should use their professional judgment if it differs from Heinle's recommendations.
